Wednesday

Communication is a way to deliver ones thoughts and feelings and way to interact with peoples.

Communication is a ^{superficially (consider control parameters) (processes)} complex process through which we express interpret and coordinate messages with other

→ This is a beautiful journey from that invisible something to something visible doable, understandable and sometimes demonstrable

We do so to create shared meaning to meet social goals to manage personal identity and to carry out our relationship in informal conversation, group interaction or public speaking

Essential Elements

Some essential elements are

* Participants: (Who) something very specific in

↓
Layman term human settings (technical term)

→ we need to understand who is participating

→ Sender & Receiver

* Not specify person like yourself, myself etc
* Mind & brain is different

* Invisible to visible schematic, systematic way

* Communication should be clear it is critical parameter

Invisible parameter should be clear main role in communication

* Sources of clarification
Vocabulary (right words from right context)
Reading & Plays

Writing Important Role
Two ways to define things

→ Layman Term
→ Technical Term (specific)

* Messages: (what) (encoding / decoding) (creating / interpretation)

↳ what are you talking about

↳ to give actual words to your thoughts (by the message provided)

coding → visible idea in some one's mind

decode → understand the visible idea correctly

creating → expressions (invisible in your mind you are expressing)

Interpret → how do you understand the creativity

Saying what insides your mind presenting your ideas expressing invisible things in your mind

→ surrounding & situation

* Context: (where) in what situation we are taking about in one situation it might be true or in other it might not be true.

→ medium through which we communicate

* Channel: (how) how something is being communicated

↳ involving language

↳ involve body expression (facial expression) (non verbal language)

↳ involve verbal expression

↳ Paranormal language (extraordinary → Para) (Sign language) (doesn't make sense in sentence but provide information)

* Interference: (distortion) (distractions)

Not get the required gain at output

↓
like hum
mhm a
etc

* Feedback: (Response) (Reaction)

↓

You have understand

(29)

↳ remaining

↳ emotional overcharge through which we are responding

In state of reaction take some time to give better response

Lecture 3:

Message (the info provided how to response using your memory)

Decoding (the process of interpreting)
how other behave if behave rudely we will take it wrong and start doing assumptions for our own

Form (organization) structure for better understanding

↳ we are not expert in something but if it is structural wrong we will feel something wrong

Context (setting)

↳ Physical

↳ Social

↳ Historical

↳ Psychological

↳ Cultural

↳ anything that is measurable

physical parameter like surroundings, objects

↳ settings (Rules / distances / way of communication)

nature of relationship (different w/o talking)

↳ memories cause happiness & sadness with boss, parents, friends

background (memories create ripples of reaction)

↳ Internal → emotion, dominating

mental processing, emotions, feelings

↳ cause sensitivity

values, belief, norms, tradition

Communication is a skill
Gifts → life

↳ health

↳ language (sign language)

conscious subconscious

* Not entirely exact meaning of things

* 7000 languages are spoken across the world

* Languages are tool for communicate

* Language is related to power

↳ outcome

↳ tool to communicate

In Pakistan there is about 70-73

Language that have proper grammar & system

Feedback

- ↳ Response calculated though not overreacting about situation give actual reaction
- ↳ Reaction emotion or physical involvement

Model (new ending process)

Feedback

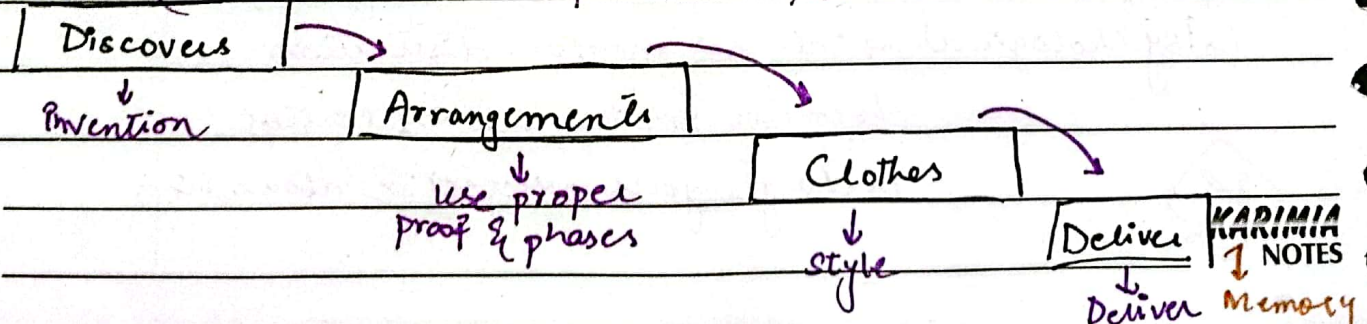

Canned Plan is a mental library of scripts of each of us draws from to create messages based on what worked for us or other in past

- ↳ social greeting through which we are expecting something by the messages & information in our mind as past meeting.
- ↳ Expectation we do in social gathering

Scripts A script is an actual text of what to say and do in a specific situation

Aristotle's model of communication

A speaker (one person discover, formulate, work on it then deliver)

Chapter 2 Perception of Self and others:

Learning Objectives

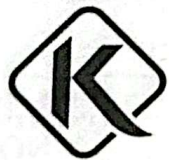

* process is a never ending thing
* process going on and on

1. The perception process
2. Perception of Self
 - Self concept
 - Self Esteem
3. Developing and maintaining self esteem
4. Presenting self to other
5. Perception of others (are we sure about our perception of other)

Perception Process

Perception process of selecting attending info

Cognitive process
↳ selection
+ve & -ve thoughts
combine

Attention & Selection

↳ Need (emotional support) (understanding) (advice)

→ Interest (common things)

→ Expectation

Organization of Stimuli (information)

→ Simplicity

→ Pattern

Interpretation of Stimuli

form a full story pattern
Things according to mental
condition (like pick weakness
like partition topic and
form ads)

Perception Process of self

→ not our control given by our families

Self concept your self identity

like when we graduate we have
a bachelor degree

Self esteem

are your personal values
Overall evaluation of your competence and personal
worthiness (how you are giving respect to yourself and
others) (built on personal values) (built by yourself) (can be
change)

Developing and Maintaining Self esteem:

How to develop?

Respect yourself, try to master your things like your profession
don't become unhumanize, wealth of our values, family morals
don't become egoistic

Self esteem positive and negative evaluation of yourself

Forming and maintaining a self concept

Personal experience

Reaction and Response of others

Ideal self concepts

Influence of Gender and culture on self perceptions

Individualistic person is free enough to have some pressure

Collectivistic in this our family surroundings become so powerful

that these pressure impact on you

→ Network of powerful people impact your personal
Opinion

KARIMA
NOTES

Changing Self perception
↳ concept changes

11 REC

Accuracy and Distortion of Self perception

Self fulfilling prophecies (prediction) (false prediction)

↳ base on some kind of social prediction people predict about you

↳ You should have proper evidences

↳ You have to filter the messages

2 way
↳ either flight
↳ either flight

How to improve the accuracy of perceptions

↳ Question → help in gaining information

↳ verify perception → cross check things

Lecture 5

Adapting Verbally and visually

Presentation Aids Language & oral style:

Chapter 13 & 14

Adapt → modify
You accept something
with little difference

* Skip up your mind

Overview:

Type of presentation aid: (what would be help)

Preparing presentational aid: (how to make slides)

Present Professionally: (how to give effectively, choosing language accurately)

We have an invisible idea in our mind, we need to plan how to present it then do an action

Purpose (important thing) (what is the objective) (point of views)

Audience is the main thing (they will determine how to present)

Fundamental Rule

↳ Subject of presentation must be to the point (must know what are you talking about)

↳ Organize a) Introduction

↳ Keep notes b) Supportive evidence

To a minimum c) conclusion

Presentation Aids: (Anything that goes along with your verbal aid)
