Attempt all the questions.

CLO 1: Calculate the moment of a force/couple using scalar and vector formulation.

Q1: Four forces are acting on the 2D shape shown below. All the angles are given in degrees. [20]

- Q1a** Find the resultant of all the forces by vector formulation and verify graphically using head to tail method. [10]
Q1b Find the resultant moment produced by all the forces at point A. [10]
